## SUMMARY

Full-stack developer with 5+ years of experience building end-to-end web applications with Next.js and Django. I own projects from database design through AWS deployment and DevOps, and have shipped multilingual SEO infrastructure, real-estate platforms, and custom internal systems that streamline business operations. I work primarily remote, balancing corporate engagements with ongoing independent projects.

## EXPERIENCE

### Full-Stack Developer — Investtime

2025 — 2026

Land investment platform · 80+ locations, 4,000+ listings · Remote

- Contributed **50-60% of the codebase** across frontend and backend for a land investment platform managing thousands of listings across 80+ locations.
- Built filterable listing search, map integration, a membership system, and a customer-facing "Title Deed Tracking" page.
- Developed an internal, non-public **CRM system** that centralized lead and customer tracking for the sales team.

### Software Developer — Independent Software Project

2021 — 2025

Remote · Project/company name withheld under NDA

- Worked remotely for 4 years on long-term development and maintenance for a software project.
- Ran independent/freelance projects concurrently throughout this period.

## SELECTED PROJECTS

### Lider Transfer — Airport Transfer Platform

2026

- Designed, built, and shipped a 15-language (including Arabic RTL), SEO-focused airport transfer site **solo, from the ground up**.
- Django REST Framework + PostgreSQL backend, Next.js frontend, Celery/Redis for background tasks; hosted on AWS Lightsail with Docker + nginx.

Next.js

Django

PostgreSQL

AWS

Docker

### Housetime — Custom Home Design Platform

2025

- Co-developed a full-stack platform showcasing prefab and custom timber home models.

## SKILLS
